

Baby Drives You Out of Your Mind

[Fielfraz](#)

I'd like to be your blanket in the
sleepness nights
like a fly on your wall cought in the
electric light
Iâ€™m staring at the door
that you slammed in my face
like you did a million times before

Baby drives you out of your mind
Baby drives you out of your mind

I'd like to be your blanket in the
sleepness nights
like a fly on your wall asking for
exclusive rights
the wind is conducting the rain
with the words you've heard
and never gonna hear again

Baby drives you out of your mind
Baby drives you out of your mind

Shine a little light on me
light up my eyes so I can see
no matter what you're hoping to be
I'd leave a little line that says
I'll be there till end of time
till the end of timeâ€™!

So I took a look
at the face in the reflection
while the cars drove outside
like a slow storm rumbling
my mind was filled with thunder

and the wind is conducting the rain
with the words you've heard
and never gonna hear again

'cause

Baby drives you out of your mind
Baby drives you out of your mind
