This Is How It Feels To Have A Broken Heart

Guster

It was the darkest day
I could tell from the moment you spoke my name
Said in a miserable way
With every year, you've come to regret it
We covered in the lines
And followed all the signs
Fought a war 'til the war was over
(Covered in the lines)
Said you'd never be the kind
With an ordinary life
Now this is how it feels to have a broken heart
Heart
Heart
Heart
Look at the mess we made
Now we stop and say what we always say
And then you make your great escape
With every year, you've come to regret it
We covered in the lines
And followed all the signs
Fought a war 'til the war was over
(Covered in the lines)
You said you'd never be the kind
With an ordinary life
Now this is how it feels to have a broken heart
And everything we have
You think that it's a trap
You fought the war, now the war is over
Said that you'd knew that you would find
Just an ordinary life
Now this is how it feels to have a broken heart
Heart
Heart
Heart
