

Come Around

M.i.a.

Check my coat in and I paid the dollar
Sidekick rings, "What's up?", holla
Text the address, I'll see you later
Baby, come down
Come down, come down, come down
Run down, run down, run down
Run, make a run, make a run, make a run
Make a run, make a run, make a run down
Dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Beat goes on
A dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Beat goes on
In a faraway land we got shit made
Ray-Ban shades, warheads laid
Babies born in air raids
My girls run the Everglades
Indian tribesmen gamble spades
Indian chicks, they get men laid
Milk and honey, smoke high-grade
Golds and diamond, gems and jade
Ride up on our tanks, invade
Blow up things to save our name
Mina, Rina, Tina, Sabrina
Being a super Indian babe
We black market, we black made
We hit shit out when it rains
Would you come down and catch my train?
Would you run down and play this game?
Check my coat in and I paid the dollar
Sidekick rings, "What's up?", holla
Text the address, I'll see you later
Baby, come down
Come down, come down, come down
Run down, run down, run down
Run, make a run, make a run, make a run

Make a run, make a run, make a run down

Dun da da dun da da dun da da dun dun

Dun da da dun da da dun da da dun dun

Dun da da dun da da dun da da dun dun

Beat goes on

A dun da da dun da da dun da da dun dun

Dun da da dun da da dun da da dun dun

Dun da da dun da da dun da da dun dun

Beat goes on

Hey, hey, baby girl, you and me

Need to go to your teepee

The moon is full and I'm shinin'

Baby, I know you see me

Put a hump or two on your back

Just like that, ooh girl, you on fire

I don't wanna be in love with you

I'ma just break you off and say goodbye

The night is young, don't make me wait

You just might miss your chance

I'ma gon' tell you the truth

Timbaland, I'm the motherfuckin' man

Today's the day, girl, let me get that

Don't get mad, in fact, let me hit that

I've been overkillin' them, I break backs

Come down, run down, girl, where your place at?

Check my coat in and I paid the dollar

Sidekick rings, "What's up?", holla

Text the address, I'll see you later

Baby, come down

Come down, come down, come down

Run down, run down, run down

Run, make a run, make a run, make a run

Make a run, make a run, make a run down

Dun da da dun da da dun da da dun dun

Dun da da dun da da dun da da dun dun

Dun da da dun da da dun da da dun dun

Beat goes on

A dun da da dun da da dun da da dun dun

Dun da da dun da da dun da da dun dun

Dun da da dun da da dun da da dun dun

Beat goes on

Break, put the lights up in here one time

And bounce, bounce, bounce, bounce

Let me tell you somethin'

Don't get it twisted, baby girl

Baby boy 'cause Timbaland ain't dead
Don't get it twisted, baby girl
Baby boy 'cause Timbaland ain't dead
Don't get it twisted, baby girl
Baby boy 'cause Timbaland ain't dead
Don't get it twisted, baby girl
Baby boy 'cause Timbaland ain't dead
Yeah, yeah, yeah, yeah, bounce
Girl, Timbaland ain't dead
