

Another Round

Attila

Now that the party's started, I never wanna resend invitations
Yeah! This is another urgent cause for celebration, who wants to get down
Tonight?
We'll rock this party 'til the walls come crashing down, so buy another
Round!

21 with no direction, living life to the fullest is my intention!

Always on a different route, I do the wrong things right!
Alright now, we're going back in time!
Always on a different route, I do the wrong things right!
Alright now, we're going back in time again!

This is another urgent cause for celebration, who wants to get down
Tonight?
We'll rock this party 'til the walls come crashing down, so buy another
Round!

We're gonna party tonight!
We're gonna party tonight!
So buy another round!

21 with no direction, living life to the fullest is my intention!

Always on a different route, I do the wrong things right!
Alright now, we're going back in time!
Always on a different route, I do the wrong things right!
Alright now, we're going back in time!
We're going back in time!

If you can't hold your party, then don't drink the liquor.
Go!

Yeah! We'll rock the party 'til the walls come crashing down, so buy
Another round!
