

Goodbye Letter

[Jonny Lang](#)

We walked away before we said goodbye
That ain't right baby
I always thought we'd stand the test of time
I was wrong baby When the lights in the house all go out
I get lonely, how 'bout you
There's a letter on the table
I've never seen it there before
I don't have to read it
'Cause I already know It's been a long time coming
And I've been awake for days
I know we can make it
But things have to change Your words say it's hopeless
But I know there's more between the lines Goodbye
is this how you want it
I'll leave but I don't want to go
And I'll wait but I can't wait forever
For you to say goodbye Well maybe I'm just dreaming
But I know dreams come true
And I'm still here believing
That God made me for you If we could just start over
Get back where we began
We're better off together
It doesn't have to end Goodbye
is this how you want it
I'll leave but I don't want to go
And I'll wait but I can't wait forever
For you to say goodbye Goodbye
is this how you want it
I'll leave but I don't want to go
And I'll wait but I can't wait forever
For you to say goodbye
(Oh, goodbye)
