

True Love

Hanne Hukkelberg

Wandering eyes stare at me
The look is weird
But fixed at me
I'm on it
Tell me it is true love!

Falling into streams of harmony
Can't get clean and tidy now
Tell me it is true love!

Brush the hair aside
Faces are visible
It grows a flower in
Tell me it is true love!

Music plays for me
I've never heard it this way before
Strange
Tell me it is true love!

I have fallen in love
Mirror shows a beautiful tree
Beautiful me
Tell me it is true love!
