

# I'll Never Leave You

[Harry Nilsson](#)

Some nights I go to sleep without you  
The river's far too deep without you  
I can't make it alone, I need you by my side  
Some nights I spend alone without you  
The river's far too wide without you  
I can't make it alone, I need you by my side  
I'll never leave you alone, I'll never leave just a memory  
I'll never leave you alone in the garden where nothing grows  
I love you so much, baby
