

# Noah

## The Jubalaires

Hook]

(Well it's a)

Oh oh Noah

Oh oh Noah (Oh ho)

Oh Noah

God's gonna ride on the wind and tide

(Well it's a)

Oh oh Noah

Oh oh Noah (Oh ho)

Oh Noah

God's gonna ride on the wind and tide

Brother Noah, my god's talking

(God's gonna ride on the wind and tide)

Say you'll ride on the wind and tide

[Verse 2: Ted Brooks]

Well after the foundation was laid

Then Noah began to hew and build

The ringing of the hammer cried judgment

The hewing of the saw cried sin and repent

A hundred years he hammered and sawed

Building the ark by the grace of God

When the ark was done God's voice was heard

He said, "Now, Noah let me tell you what to do."

"Call in the animals two by two."

So he called them in the ark two by two

He called the bird, the ox, the kangaroo

Then he called in Japheth, and Ham, and Shem

Then God began to flood the land

He raised his hands to heaven on high

Shook the stars and they moved from the sky

Shook the mountains, he troubled the sea

Hitched the wind, his chariot decree

He stepped on land and stood on the shore

And declared that time there wouldn't be no more

[Outro]

Oh Noah

Oh oh Noah

Oh oh Noah  
God's gonna ride on the wind & tide
