

# Light Rain

Geoff Muldaur

{Only some of verses}Light rain fallin', light rain fallin'

Light rain blowin' in the air

{Repeat first 2 lines}

Tell me, tell me mama....

Is it blowin' in my sweet baby's hairWe used to walk together now

When the world was fresh & green

{Repeat first 2 lines}

Now it seems like dried grass

Is all in the world I've ever seenSeems like the world's on fire now....

Not a cloud up in the sky

{Repeat first 2 lines}

Yeah, the world's like a desert

Where the waterhole's gone dryOh green grass, green grass, green grass

You were born upon a rainy day

{Repeat first 2 lines}

Your daddy was a light rain, your mama was the month of May. {Repeat Verse One}
