Minimal (minimal), minimal (minimal)

M I N I M A L

Minimal (minimal), minimalWhite on white

Light, sublime

Subliminal

The void is clean

A cell, but not for a criminalLight and shade

Time and space[Chorus]Draw a line

More is less

Is minimal

The form of life

Decide something less decisional (decisional)Light and shade

Time and space[Chorus](Minimal, minimal)

Void is cleanAn empty box

An open space

A single thought

Leaves a traceAn empty box

An open space

A single thought

Leaves a traceLight (light), and shade (shade)

Time (time) and space[Chorus: x2]
