

# Before I Go Out

Jordan White

With thorns and rushes  
Of rose and sorrow  
Yesterday got taken out  
By tomorrow  
And I promise to tell you something  
If you tell the sun not to rise  
And if you keep my secret  
I'll keep your lies We're in a little bit of trouble  
For the little things we need  
When all the rainy days  
Either shine or they bleed  
With no separate peace  
The branches hang too low  
There's somebody caught  
In the catcher left below (Chorus)  
But if the sun, it don't need me  
And the shadows just don't please me  
Could you let me come over again?  
Let me come over again It gets darker by the mile  
Every glance that you pull down  
Lean my head against the wheel  
Lean against the sound  
And the pavement hits us hard  
All the concrete steps  
If my blood was in your veins  
Would you tell me where it went (Chorus) And when I needed someone  
I knew I'd go without  
Like the bulb that burns it's brightest  
Just before it goes out (Chorus)
