Magic Words

Jesse Labelle

[Verse 1]I want you to come to me when you're feeling down.
Knowing I can count on you during hard times.
We will find a way but it won't come easy.
When the yearning fades away, do we wanna stay?
[Verse 2]Trying to be strong for you like you're strong for me.
Looking at you holding up so easily.
When I'm having doubts about what I'm feeling
And future worries are darkening my mind.
That's when you come around.
[Chorus]And you just say that magic words and everything is fine again baby.
You just touch me like I love and loving you feels new again...mmm yeah.
Sometimes I can get kinda low and I just wanna walk away (from you).
Then you just say the magic words - oh baby - and I feel the sun shinning down on me again.
[Verse 3]I know I can be a pain to you at times.
I just wanna find a way to compromise.
I gotta learn to deal with you going your way.
And though you can't be here with me sometimes.

I can't wait till you come around.
[Chorus]And you will say that magic words and everything is fine again baby.
You will touch me like I love and loving you feels new again...mmm yeah.
Sometimes I can get kinda low and I just wanna walk away (from you).
Then you just say the magic words -oh baby- and I feel the sun shinning down on me again.
[Bridge]You belong to me.
I belong to you.
And the feeling's true.
A sense of security.
I love you baby.
And I know you love me too.
When you say the words, the special words, the magic words...
When you say you love me.
[Chorus]Say that magic words and everything is fine again baby.
And you just touch me like I love and loving you feels new again...Oh yeah.
Sometimes I can get kinda low and I just wanna walk away.
Then you just say the magic words -oh babe- and I feel the sun shinning down on me again.
