Afloat

MicroA

Hold on
Hold on
Looking for a reason to go on
Alone again
On my own again
Now everything has turned
From right to wrong
Oh, trying to keep afloat
I'm on a sinking boat
Trying to keep afloat
Begining to find
I'm low on time
Floating on the ocean in a storm

The shore is gone
And the end has drowned
But hope only shines
The brighter in the night
Oh, fighting to keep afloat
The world's a sinking boat
Fighting to keep afloat
Oh I'm watching it pass me by
It's flashing before my eyes
I'd die for another try
But the world is sinking
Let it all go
Let it go
