Song No. 12

Europe

Hoping you will find this message
The words begin to leave my mouth
Through the capsule down the wireYeah you came for love setting of that killer spark
You came for love tearing all my doubts apartBoost the signal need some gain
Amplify my deepest thoughts
The consol guides my masterplanCause you came for love setting of that killer spark
Yeah you came for love tearing all my doubts apartAnd I'll reach you through the air
And I'll reach you through the airHoping you will find this message
As I watch the faders move
I think of how you make me feelCause you came for love setting of that killer spark
Yeah you came for love tearing all my doubts apart
I'll reach you through the air
