

# Breathe In, Breathe Out

## Set It Off

Do you ever wanna run away?  
Feel like every day is not your day  
Do you ever find yourself out  
In the cold no were to go  
If the world has ever cut you deep  
If the scars never seem to heal  
If the emptiness is way too much for you  
All you can do  
Just breathe in, breathe out  
That's a moment in your life  
Breathe in, breathe out  
It's a wonderful night  
No matter where the seasons fall  
No matter how the dice will roll

In the end the here and now is all we have  
Don't look back  
Just breathe, in breathe out  
That's a moment in your life  
Breathe in, breathe out  
It's a wonderful night  
A hundred million times  
A hundred million times  
Just breathe in, breathe out  
That's a moment in your life  
Breathe in, breathe out  
It's a wonderful night  
It's a wonderful night
