

Lunch Will Keep Us Together

Neil Sedaka

Lunch Will Keep Us Together
Lunch, lunch will keep us together
There's no meal that's better
Just give me a fork and a spoon
It's almost noon
Make me some food cause I want to eat soon
Just stop cause I'm really hungry
Stop, I can hear my tummy
Look in the fridge and let lunch keep us together
Mmmm
Hot dogs, mac and cheese, french fries and ketchup I'll drown
When the others say they're stuffed, who's still chowin' it down
I will I will I will I will
Bite down and chew forever, lunch will keep us together
Ate it before and I'll eat it again
Alone or with friends
Keep the food coming and I'll tell you when
Just stop cause I'm really hungry
Stop, I can hear my tummy

Look in the fridge and let lunch keep us together
Whatever
I will I will I will I will
Just stop cause I'm really hungry
Stop, I can hear my tummy
Look in the fridge and let lunch keep us together
Mmmm tastes good
Hot dogs mac and cheese, French fries and ketchup I'll Drown
When the others say they're stuffed, who's still chowin' it down
I will I will I will I will
Bite down and chew forever, Lunch will keep us together
Ate it before and I'll eat it again
Alone or with friends
Keep the food coming and I'll tell you when
Just stop cause I'm really hungry
Stop, I can hear my tummy
Look in the fridge and let lunch keep us together
Whatever
I will I will I will I will
