

Even If

Kristine Alicia

Doesn't seem that selfish, no, not in the least
What's so self righteous about this curiosity?

 This want for a meager exchange

 So much time has passed but still it remains
 This need for you is a recurring theme in my life

 Don't you think I'm lonely?

 Eager to complete the story

 Confused and still haunted

 With why you'd start over

 Oh and ignore me

 It takes time to realize the other side of you
 That's controlled and blinding on sight of our lives

 Well even if you left me and my brother

 Even if you left us and our mother

 I want nothing more than to catch your eye

 Would you be impressed with how far I've climbed
 Without your assistance with you nowhere in sight?

 Don't you think I'm lonely?

 Eager to complete the story

 Confused and still haunted

 With why you'd start over

 Oh and ignore us

 It takes time to realize the other side of you
 That's controlled and blinding on sight of our lives

 Even if you left me and my brother

 Even if you left us and our mother

 She's had her share more than we'll know

 My brother won't, he just won't let go

 They say you're sick and there's a name and a phrase

 To apply and help explain

 Still having trouble trying to separate

 How you started a new family?

 Even after you left me and my brother

 Even after you left us and our mother
