Dose

Primer 55

Psychedelic suicide trip it and you'll never die You see sometimes I can not believe the things that acid does to me Chemicals inside my brain, laughter easing all my pain Once thing I cannot believe the things that this world does to me Does to meSomebody help me I'm fallin' apart at the seams Only salvation is a drug called L.S.D.Psychedelic suicide I hate that's dwelling deep inside Look inside and you will see there's no such thing as make believe Chemicals inside my brain assuring me that I'm insane One thing I cannot believe the things that this world does to me Does to meSomebody help me, I'm fallin' apart at the seams Only salvation is a drug called L.S.D.I can do anything When I dose, I can do anything

When I dose, I can do anything

When I dose, I can do nothing I can do anything

When I dose, I can do anything

When I dose, I can do anything

When I dose, I can do nothingSomebody help me, I'm fallin' apart at the seams, at the seams Somebody help me, I'm fallin' apart at the seams

Only salvation is a drug called L.S.D.Underneath the skin, lies your misery Somebody help me, I'm fallin' apart at the seams
