

# Underworld

## Trimada

You think you're winning but you'll lose the fight  
You're in the darkness and you'll never see the light  
You can't sleep you're in too deep in your underworld  
Stepping out messing up that's your game  
You play with fire but you can't put out the flame  
It's your turn to get burned in your underworld  
I will bury you in your underworld  
I will bury you in your underworld

There's no church for you no sanctuary  
There's no place to hide you can't get away from me  
You can't run to a place in the sun  
You're in your underworld  
You can't run, you can't run, you can't run  
You'll get done, you'll get done, you'll get done  
I will bury you, I will bury you  
Your time is running out that's for sure  
They're gonna track you down cause you back's to the wall  
You can't run you'll get done in your underworld
