Fire In The Sky

Hypocrisy

Yeah
Like a fire in the sky, they came to earth
To put the life on the run,to hide and observe
Basic destruction and chaos
People running for their lives
Secret abduction for their research
You can scream but you can' t hideRunning from the shadow
Can I ever be free?
Struggling for my life
What do they want from me?The invasion of your private life has only begun
Our right has been denied
There' s nowhere to run
They don' t care what you're feeling
They only do what has to be doneRunning from the shadow
Can I ever be free?
Struggling for my life
What do they want from me?Lying on a cold bed
Faces hard to see
Wake me up and take me away
So I can breatheRunning from the shadow
Can I ever be free?
Struggling for my life
What do they want from me?Lying on a cold bed
Faces hard to see
Wake me up and take me away
So I can breathe
