

# The Rock And The Tide

[Joshua Radin](#)

See a mountain, see an ocean, see the years that bring  
Rock and tide together  
Settle down I said to myself, things that come with time  
Will always be better  
Everyone gets what they want too fast, these days  
No one knows the way to make things last  
Still I say, Hey Baby, I'm through waiting  
'Cause I need you now I'll show you how  
You can take my hand and save me, C'mon save me

Now the moon is in the right place after years of  
spinning 'round the sun, so I'm done with  
all the times I strained to find a rhyme left me blind and busted  
Everyone gets what they want too fast, these days  
No one knows the way to make things last  
Still I say, Hey Baby, I'm through waiting  
'Cause I need you now I'll show you how  
You can take my hand and save me, C'mon save me
