

The Magic Song

Los Capitanes

He can see it in her eyes
The things that she would hide
What's the point in that? he says
I'm the guy that knows you the best
When she says things are okay
She doesn't mean it in that way
Cause she hurts more than she lets on
He's gonna stop it cause it's CHORUS:
Face your problems every day
In a stiff upper lip way
If you ever let it slip
He'd appear just like magic
Like magic, yeah, yeah The one thing that she did not plan
A man who'd understand
He confronts her and she backs down
Another smile swapped for a frown
When she says things are okay
She doesn't mean it in that way
Cause she hurts more than she lets on
He's gonna stop it cause it's wrong CHORUS She cries so much her eyes are sore
She don't need him anymore
He knows it's time to let her go
She don't want him any CHORUS He's like a dream that won't come true
Even though you want him to
You ask a lot if he is real
Slip into love on a banana peel
Don't ever give yourself away
Or let him have his say
Cause when you do, that makes you vulnerable
And all those pretty things he can
Promise you, don't mean a thing
So when your dreams hit the reef and sink
You know he'll be there, just like magic
