

# Mourner's Dance

[Devendra Banhart](#)

The early writings show the sequence of the dance  
The individual will awake [?]  
I looked into the rule  
And saw the dance resume  
Between the origin  
Between the dawn It will consume your body when the dance is through  
There is no review, there's only ever you  
There is no review, there's only ever you I looked into the verse  
And saw the dance disperse  
Between the images  
Between the lines Only the truth decides [? activates the ?]  
It must be understood before it can be learned  
The party zone ever in the dance  
The party zone ever in the dance The mourner's dance begins  
When we remember them  
The mourner's dances through  
When we remember you
