Elvis

Alpha

ElvisLook into the darkness
I'm dancing in the shadows with you
There's a world waiting out there for us to see
...
And beneath the starlit blanket
Dreams are made of solid gold
I just wanna be the one to hold you there
When you're coldWith so many pictures on the walls
Of five billion minds
We just need to take them out sometime
Y'know and start living the good times
...
Decent dreams and pictures make you airborne
When you close your eyesThat's why I wanna fly with you tonight
No one else, no one else can make the flight like you
So I wanna fly with you tonight
And no one there, oh lord oh lordI'm obviously indebted to you
By the way that you make me feel
Those ice cold warm heart
Is always gonna be able to turn a dream to real
I say
I'm touching all horizons with you
I got my sights on solid gold
I feel superhuman baby
Y'know like the way the marvel make man feel in their shows
Now check out what my mind say
Check out what my words say
Check out all my actions
I just want your satisfactionYou know cause I wanna fly with you tonight
Oh no one else, no one else can make the flight like you
So I wanna fly, oh, with you tonight
And make dreams, make a dream a real life
I can ohYou got to take my hand lady
Oh yeah
Then you'll understand what I'm saying
And you know we gonna find the ideal destination
I say I say
I, I wanna fly with you tonight
