

# La Di Da

Jet

Let it come down, let it all come down  
Get up, get in, get out  
Do you have something to say?  
Only you don't get to talk, not to me that way  
Let it come down, let it all come down  
Come on, come on, come on  
Are you feeling the same?  
I will still be standing here when you walk away  
I don't know anymore what I need and what for  
All I know is there must be something more  
Let it come down, let it all come down  
You know, you know, you know  
It don't matter what those people say  
You don't want to live your life someone else's way  
I don't know anymore what I need and what for  
All I know is there must be something more  
La, di, di, la, di, da, how did we ever get this far?  
Well, I know that there must be something more  
Let it come down, let it all come down  
Come on, come on, come on  
I know you got something to say?  
Only you don't get to talk, not to me that way  
I don't know anymore what I need and what for  
All I know is there must be something more  
La, di, di, la, di, da, how did we ever get this far?  
Well, I know that there must be something more
