

# Wake Me Up

Norah Jones

Wake me up when it's over  
Wake me up when it's done  
When he's gone away and taken everything  
Wake me upWake me up when the skies are clearing  
When the water is still  
'Cause I will not watch the ships sail away  
So please, say you willIf it were any other day  
This wouldn't get the best of meBut today I'm not so strong  
So lay me down with a sad song  
And when it stops then you'll know  
I've been gone too longBut don't shake me awake  
Don't bend me or I will break  
Find me somewhere between my dreams  
With the sun on my faceI will still feel it later on  
But for now I'd rather be asleep
