

# Work for It (feat. YFN Lucci)

## Kayla Brianna

[Hook: Kayla Brianna]

This for all the bad bitches in the party  
Know they tryna feel up on your body  
Know they tryna take you to the lobby  
And take you to the room for the night  
Work for it, baby make 'em work for it

I'mma make you work for it, baby make 'em work for it

Work for it, baby make 'em work for it

I'mma make you work for it, baby make 'em work for it [Verse 1: Kayla Brianna]

Baby show me what you gon' do for this

And I got my own, don't ever need it from him

Walk right in the club, another dude on list

I became the product, never need it from him

I'm my own kind, baby look at the wrist

I'm my own kind like I'm wagging them hips

Yeah it's just the way that it's supposed to be

Better come correct when you stepping to me like [Pre-Hook: Kayla Brianna]

Oh, yeah you say you getting dough

Looking just the way I want

And I might give you what you want

But hold on [Hook: Kayla Brianna]

This for all the bad bitches in the party

Know they tryna feel up on your body

Know they tryna take you to the lobby

And take you to the room for the night

Work for it, baby make 'em work for it

I'mma make you work for it, baby make 'em work for it

Work for it, baby make 'em work for it

I'mma make you work for it, baby make 'em work for it [Verse 2: YFN Lucci]

She tryna make me work like RiRi

And she know I'm the perk, I'm a big freak

Damn she sweet like dessert, I'mma eat, eat

Yeah she got a nigga heart like concrete

Treat of the night

Tryna put some diamonds on the wrist like ice

40 thousand dollar Birkin, bought it on sight

And I be goddamned if you thought I loaned, right

It's a lot of bad bitches in the party

Know I'm gon' be feeling on somebody

Know a nigga pull up in the 'rari  
Know I'm gon' be leaving with somebody[Hook: Kayla Brianna]
