

# Sometime Sunshine

**Jim Ed Brown**

She opens my door and crosses the floor and touches my cheek  
She's startin' the storm her fingers are warm the feelings are deep  
She's my sometime sunshine when she turns her good love on me  
She's my sometimes in her time of need She's needin' me more than ever before by the mood she is in  
She's turned out the light it's that time of night to be more than friends  
She's my sometime sunshine...I light up a smoke she begins to stroke her hair with my comb  
She'll need me again I wish I knew when I hated alone  
She's my sometime sunshine...
