

# Back to Me

## Nine Days

If you would just come back to me  
I would be so good  
Put your trust back in me  
The least I think you should We'll call it my pathology  
So I misunderstood  
A bit selfish I should be  
If I could change I would  
See it on my face All I wanted was a friend  
To look in me to comprehend  
All I wanted was to fly  
Could you sit and watch me die All I wanted was you there  
Your cruelty was my despair  
You just killed me so the story goes Once upon a time, there was a girl  
Who loved me more than life itself  
By the duck pond, she said  
Carved our names into the bark  
We climbed the tree I slipped and fell behind  
Now I'm sorry If you would just come back to me  
I would be so good  
Put your trust back in me  
The least I think you should We'll call it my pathology  
So I misunderstood  
A bit selfish I should be  
If I could change I would  
See it on my face  
See it on my face All reminds me of your name  
We sought fortune through the rain  
Every day and every place  
Everywhere I kissed your face All the sacrifice in vain  
How could you put all the blame upon me  
That's not fair, so the story goes Once upon a time we had the moon  
We had the stars, we were divine  
Upon my shoulder, she cried  
Now she hides the faith, she fears  
She throws herself before her bed of lies  
She'll be sorry If you would just come back to me  
I would be so good  
Put your trust back in me  
The least I think you should We'll call it my pathology

So I misunderstood  
A bit selfish I should be  
If I could change I would  
See it on my face If you would just come back to me  
I would be so good  
Put your trust back in me  
The least I think you should We'll call it my pathology  
So I misunderstood  
A bit selfish I should be  
If I could change I would If you would just come back to me  
If you would just come back to me, oh  
If you would just come back to me  
I see it on my face  
It's alright  
It's alright  
It's alright
