

Sorry

Hazen Street

I'm so sorry
I've been impossible I know
So used to bein' on my own
Livin' so reckless
Tell me what you want me to do
I know you want the best for me and you And I hope you understand
That I'm trying to cope
I wanna be somethin'
Give me some more time and you'll know
Give me some more time and I'll show you that I won't let you down
I won't let you down
No more oh no
I won't let you down I won't let you down
I won't let you down
No more oh no
I won't let you down You give me somethin' to live for
Somethin' to die for
Somethin' to hope for
Somethin' to strive for Same old story
I'm irresponsible I know
Don't want to end up on my own
Feelin' so helpless
Tell me what you want me to do
I only want the best for me and you Give me hope
Understand that I need your help
If I'm going to be somethin'
Just a little time and you'll know
Just a little time I won't let you down
I won't let you down
No more oh no
I won't let you down I won't let you down
I won't let you down
No more oh no
I won't let you down You give me somethin' to live for
Somethin' to die for
Somethin' to hope for
Somethin' to strive for I'm so sorry
I've been impossible I know
So used to bein' on my own

Just a little time and you'll know
Just a little time I won't let you down
I won't let you down
No more oh no
I won't let you down I won't let you down
I won't let you down
No more oh no
I won't let you down You give me somethin' to live for
Somethin' to die for
Somethin' to live for
Somethin' to die for
Somethin' to hope for
Somethin' to strive for
