

# Slip

## Stooshe

Slip!  
Let me talk to you for a minute  
I'm like, baby  
Where did your love go  
You say that I got it but it's so damn hard to believe, yeah  
I said, baby  
Where did ya manners go  
You used to open doors and I adored your courtesy, yeah yeah  
So if you really really really wanna stay in my bed  
You got to win me over again Why did you let it slip (slip)  
Bring ya love back to me (back to me)  
You put ya heart back in it  
Say it like you mean it  
That's how it used to be  
Why did you let it slip (slip)  
Gimme that TLC (give it back to me)  
And put ya mind back on it  
Do it like I want it  
That's how it used to be  
Why did you let it slip I'm like, baby  
Where did that charm go, yeah  
You used to say I'm pretty, give it all that nitty gritty I need, oh yeah  
I said, baby  
Where did your style go, yeah  
You used to be on top of your game and now you look unclean, oh yeah  
So if you really really really wanna stay in my pants  
You got to do better than that Why did you let it slip (slip)  
Bring ya love back to me (back to me)  
You put ya heart back in it  
Say it like you mean it  
That's how it used to be  
Why did you let it slip (slip)  
Gimme that TLC (give it back to me)  
And put ya mind back on it  
Do it like I want it  
That's how it used to be  
Why did you let it slip Baby  
Where did my smile go, yeah  
You used to cheer me up but now I'm tearier than 10 babies

Ooh maybe  
Maybe ya swimming on the other side, yeah  
It's hard to believe how you could ever get enough of me, yeah yeah Why did you let it slip (slip)  
Bring ya love back to me  
You put ya heart back in it  
Say it like you mean it  
That's how it used to be  
Why did you let it slip (slip)  
Gimme that TLC (give it back to me)  
And put ya mind back on it  
Do it like I want it  
That's how it used to be  
Why did you let it slip (slip)  
Bring ya love back to me  
You put ya heart back in it  
Say it like you mean it  
That's how it used to be  
Why did you let it slip (slip)  
Gimme that TLC (ooh, give it back to me)  
And put ya mind back on it  
Do it like I want it  
That's how it used to be  
Why did you let it slip
