Back To Love

The Brand New Heavies

Yeah, yeah, yeahIt seems to me that we don't always get along
If we are trying now, don't seem to try too long
Watching your neighbor seems to fill you with alarm
Just 'coz he's different now, don't mean he means you no harmCity living got us all pent up inside
When we have problems, seems we all just run and hide
Time to discover why we are feeling this way
Let's let love have its sayI know you need it
Brother said, he needs it
Sister said, she needs it
We're all gonna need it somedayWe seem to lose our way
Somehow got lead astray
That's why I'm here to stay
Gotta get back, get back to loveI know you need it
Brother said, he needs it
Sister said, she needs it
We're all gonna need it somedayWe seem to lose our way
Somehow got lead astray
That's why I'm here to stay
Gotta get back to loveTrouble started when we don't communicate
We build our future now or we will seal our fate
Wasted energy on promises we break
We've wasted chances now but still, it ain't too lateThere is a common goal we must realize
It's time to make a change in how we live our lives
Time to discover why we are feeling this way
Let's let love save the dayI know you need it
Brother said, he needs it
Sister said, she needs it
We're all gonna need it somedayWe seem to lose our way
Somehow got lead astray
That's why I'm here to stay
Gotta get back, get back to loveI know you need it
Brother said, he needs it
Sister said, she needs it
We're all gonna need it somedayWe seem to lose our way
Somehow got lead astray
That's why I'm here to stay
Gotta get back to loveI know you need it
Brother said, he needs it
Sister said, she needs it

We're all gonna need it somedayWe seem to lose our way
Somehow got lead astray
That's why I'm here to stay
Gotta get back, get back to loveI know you need it
Brother said, he needs it
Sister said, she needs it
We're all gonna need it somedayWe seem to lose our way
Somehow got lead astray
That's why I'm here to stay
Gotta get back to loveI know you need it
Brother said, he needs it
Sister said, she needs it
We're all gonna need it somedayWe seem to lose our way
Somehow got lead astray
That's why I'm here to stay
Gotta get back, get back to loveI know you need it
Brother said, he needs it
Sister said, she needs it
We're all gonna need it someday
We seem to lose our way
Somehow got lead astray
