

A World Away

Avalon

I've been walking down this long road, simply taking in the view
I've wandered down some wrong roads, hit a dead end or two
Now, I'm paying more attention before I even take a step
I've gotta learn to forget I don't know 'bout you, what life has brought you through
But we'll keep walking on, headed home and see what He will do We're a world away from where we started
No more looking behind
We can make it if we just hold on
Keep the faith 'cause love's on our side I point my heart in His direction knowing He will be my guide
I've learned to follow my affections, walk away from foolish pride
When I think of where we started, look to the end
See the distance is less now than when we began And it's now I see, I need you right here with me
And we'll be walking on, headed home if we just believe We're a world away from where we started
No more looking behind
We can make it if we just hold on
Keep the faith 'cause love's on our side We're a world away but we're not there yet
There's a whole lot of road up ahead
I want to ride every single mile with you
We're a world away, no more yesterdays, we're a world away The One who has made a way for you and me
Is the same One who's seen us do everything wrong
But He can make it all right if we believe it's true
If we say what we say and do what we do
And hold onto Him, He's gonna see us through
