

# 5th Dimention (feat. Ricco Barrino)

## B.o.B

Ooohhh B.o.B,  
Whats up whats down,  
Ladies and gentleman, we are enterin, the 5th dimension,  
Right on right on, B.o.B. B.o.B give it to em  
Girl im eons and eons beyond these be-ons, another human like me  
there will never be one,  
The planet that I be on, I can never speak on,  
The stars is what I sleep on, the moon I put my feet on  
The way my aura glows you'd swear Im made of neon, cooler than the free-on that's in your dodge neon  
The say the futures now to me it hasn't begun, stay tuned to me and there will never be a re-run  
So come and leap on my body, and as we come you'll prolly feel moist like the trees on the tropics  
We gone, we out it, no we don't need rockets, no we hop on the mother ship and we gone, we slide it  
We slippin thru the nitches, we hyperspace glidin, blasting thru the atmosphere, fighting in the lightning  
I know im out my mind girl, but you know you like it, so hop up on my cosmic highway so we can ride it  
Short are you going my way, oohhh  
I wanna ride on your cosmic highway  
Ohhhhhh lets go, Ohhhhhh lets go  
Shorty I cant stay here on the earth no more  
Another galaxy we must go  
Fresh up out the sky im like a meteorite, so in the studio no I don't need to go right  
I just came up in the game cuz you needed more light, so by the time youre done there wont be no more mic  
And people ask me bob what kinda language is that, cuz I be blasted to da future I may never come back  
And im a leave with a 30 thousand light year lead, headed to a distant planet called B.o.B.  
And then im gone, man they're not ignoring it, taking off from half court, air Jordan it  
All systems is go in 10 seconds im orderin, hanging from the cosmos like a space ornament  
Heat in my left pocket left hand, oh yea I bring the pain, similar to an asteroid that's headed toward your brain  
My lane, is something that they really cannot explain, they try to hold me down but its me they cant  
contain  
Short are you going my way, oohhh  
I wanna ride on your cosmic highway  
Ohhhhhh lets go, Ohhhhhh lets go  
Shorty I cant stay here on the earth no more  
Another galaxy we must go  
Come and go with me, ill take you to my galaxy  
Im talking bout venus, venus, Jupiter, Jupiter, mars, mars  
And im sayin girl lets ride all night, and I need ya cuz this ship love to take flight  
Lets go, Lets go, come on baby lemme take it off, another second we gon' blast it off  
Short are you going my way, oohhh  
Come and ride on my cosmic highway  
Ohhhhhh lets go, Ohhhhhh lets go  
Shorty I cant stay here on the earth no more

Another galaxy we must go
