

# Adios (feat. Amy Grant)

[Jimmy Webb](#)

Ran away from home when I was seventeen  
To be with you on the California coast  
Drinking margaritas all night in the old cantina  
Out on, out on the California coast Don't think that I'm ungrateful  
And don't look so morose  
Adios, adios We never really made it baby  
But we came pretty close  
Adios, adios Going up north where the hills are winter green  
I got to leave you on the California coast  
Going where the water's clear and the air is cleaner  
Than, than the California Coast Our dreams of endless summer  
Were just too grandiose  
Adios, adios And I miss the blood red sunset  
But I miss you the most  
Adios, adios  
Adios, adios  
Adios, adios
