

# Bubbly

## Rocket Empire

I've been awake for a while now  
You've got me feelin' like a child now  
'Cause every time I see your bubbly face  
    I get the tingles in a silly place  
        It starts in my toes  
        And I crinkle my nose  
        Wherever it goes I always know  
            That you make me smile  
            Please stay for a while now  
                Just take your time  
                Wherever you go  
        The rain is fallin' on my window pane  
            But we are hidin' in a safer place  
            Under the covers stayin' safe and warm  
        You give me feelings that I adore  
            They start in my toes  
            Make me crinkle my nose  
                Wherever it goes  
                I always know  
            That you make me smile  
            Please stay for a while now  
                Just take your time  
                Wherever you go  
            What am I gonna say  
        When you make me feel this way?  
            I just, mmm  
            It starts in my toes  
            Makes me crinkle my nose  
                Wherever it goes  
                I always know  
            That you make me smile  
            Please stay for a while now  
                Just take your time  
                Wherever you go  
        I've been asleep for a while now  
        You tucked me in just like a child now  
        'Cause every time you hold me in your arms  
        I'm comfortable enough to feel your warmth  
            It starts in my soul

And I lose all control  
When you kiss my nose  
The feelin' shows  
'Cause you make me smile  
Baby just take your time now  
Holdin' me tight  
Wherever, wherever, where ever you go  
Wherever, wherever, where ever you go
