Rumor Has It

Mathai

Darlin' you know it's true
The rumor you heard about me lovin' you
Well, I never told a soul
So, tell me how the whole world knows
It must have been the roses and the wine
Or maybe this unexplainable smile
They say where there's smoke there's fire
Well, I hope it?s true
'Cause rumor has it, you love me too
Well, I got a ring and a plan
But I see you're onto what I'm gonna ask
Well, I never said a thing
Tell me, what gave it away
It must have been the roses and the wine
Or maybe this unexplainable smile
They say where there's smoke there's fire
Well, I hope its true
'Cause rumor has it, you love me too
It must have been the roses and the wine
Or maybe this unexplainable smile
They say where there's smoke there's fire
Well, I hope it?s true
'Cause rumor has it
It must have been the roses and the wine
Or maybe this unexplainable smile
They say where there's smoke there's fire
Well, I hope it?s true
'Cause rumor has it, you love me too
Yes you do, I heard it too
