

Simple Survival

Mushroomhead

The shadow within me
The sorrow at my feet
Push the colors from the make up
Drop your feelings at the door
Has anybody here had enough
Walking in on so much more
Gonna make you give up
I wanna see you get up
I said your the only one
Whats your name

Who do you love
I wanna hate you kill you
Treat you like I've had enough
Keep breaking the shame
Take away all i wanna say
Regretting the day
You dont believe in me
Ill show you just what you wanna see
The end in me
Gonna lead the revival
No simple Survival
For me
