

# Signs (Armand van Helden Remix Edit)

## Bloc Party

Two ravens in the old oak tree, one for you and one for me  
Bluebells in the late December, I see signs now all the time  
The last time we slept together, there was something that was not there  
You never wanted to alarm me but I'm the one that's drowning now I could sleep forever these days because in  
my dreams I see you again  
But this time fleshed out fuller face in your confirmation dress  
It was so like you to visit me to let me know you were OK  
It was so like you to visit me, always worrying about someone else At your funeral I was so upset, so upset,  
In your life you were larger than this  
Statuesque I see signs now all the time that your not dead your sleeping  
I believe in anything that brings you back home to me
