

# Take a Hit

## Mack 10

I'm gonna get you high today Relax facin', facin' mind-bogglin' hallucinations  
Easy does it till the skull get your lungs full  
Take a deep [Incomprehensible], sit back 'cause Mack  
Got that bu-yow shit that get'cha higher than wick-wack Is hard as stone alone, it's always on  
Never home-grown totin' 'cause the streets made me potent  
Down since '84 now live for '95  
Got it swingin' while some niggas bangin', I'm dope slangin' For my everyday expenses, know the consequences  
The bigger the sack, the bigger the sentence  
No time for repentance, put it down, count the stripes  
That I tally, runnin' backstreet's and alleys through Inglewood, Cali So back the fuck up, don't act the fuck up  
Never slip from the hit, triple-six in the clip when I trip  
So busters beware, never dare to have qualms  
With that nigga Mack 10 full of ghetto ass bombs  
Take a hit Can you feel it nigga? Nothin' can save ya  
Roll ya papers and take a heel on my shit  
Can you feel it nigga? Nothin' can save ya  
Roll ya papers and take a heel on my shit Get'cha high like a rocket, loot in my pocket  
Mean like the green, bomb like the chocolate  
Thai, I Mack 1-0, gun ho  
Dirty ass Lynch Mob crew, new voodoo Cast a killer, cap peeler, hang with gorillas  
Tragic when you catch it, runnin' from my magic  
New Jackin' got it crackin' like Nino's  
Stackin' like casinos, bomb like the primos Make your crack dough black, attack like karate  
Always beamed up like Scotty, I control your body  
Leave ya numb, red rum, slug like a Dodger  
Nothin' bomber than this West side ghetto ganga Hundred proof pure dopeness and it seems  
Heavy as a Chevy, too much for a triple beam  
Fiend for the microphone, one pop ya drop  
And it don't stop, I can't stop Mack 10 and it won't stop So take a hit  
(I'm gonna get you high today)  
Shit, Mac 10  
(But I'm gonna get you high today)  
Shit Can you feel it nigga? Nothin' can save ya  
Roll ya papers and take a heel on my shit  
Can you feel it nigga? Nothin' can save ya  
Roll ya papers and take a heel on my shit Got that one-hitter quitter shit so take a whiff  
Need a torch to light my spliff, work the late night shift  
Get my drift? Had it sewed up ever since I showed up  
Cookin' up boulders, got a crew fulla soldiers Claimin' B's, claimin' C's, everybody Gs

Went from laces to Deez, from mo' C's to Ki's  
What you need guaranteed to whip and leave ya trippin'  
Like your sane, I sippin', funky germ dippin' Make you tweak, lose sleep, I creep like a phantom  
Ran 'em then I win 'em, all up in 'em like venom  
Got the lotions, slow motion, hit the magic potion  
Don't panic, satanic, devotions, convulsions Wipe your whole crew out, niggas get blew out  
Hides behind a stockin' while the bomb's tick-tockin'  
Keep rockin' and it don't quit, it's Mack 10 the shit  
So press your luck but'cha know you can't fuck wit it  
Take a hit Can you feel it nigga? Nothin' can save ya  
Roll ya papers and take a heel on my shit  
Can you feel it nigga? Nothin' can save ya  
Roll ya papers and take a heel on my shit Can you feel it nigga? Nothin' can save ya  
Roll ya papers and take a heel on my shit  
Can you feel it nigga? Nothin' can save ya  
Roll ya papers and take a heel on my shit
