

# Beyond Belief

## Epica

Wisdom, knowledge, science  
You know that's always better, faster  
This is the final end

A voice in the wilderness  
Fights in fear no more  
Because this stronger death  
More sold men before

Massive tears wake up  
Shows what's to expect  
Scores on top of scores  
Racing for the future we don't have

Fear is taking over me  
There is nothing I can see

The future is as certain  
As life will come to an end  
When time feels like a burden  
We struggle with a certain death

Wisdom, knowledge, science  
You know that's always better, faster

We have to guide ourselves  
For we cannot stand  
One more false pretense getting out of hand

Now fear is the driving force  
Taking over us  
And finding out this source  
Made to know to be too much to bear

Fear is taking over me  
There is nothing I can see  
How could peace seem more to be

The future is as certain  
As life will come to an end

When time feels like a burden  
We struggle with a certain death

Wisdom, knowledge, science  
You know that's always better, faster  
Defeat the science, knowledge, wisdom  
These words have always ever lasted  
This is the final end

Vertigo, impossible  
Vertigo, impossible  
We store all that belongs to us

It depends, the way to speak  
It depends, is what we say  
We store all that was left behind

The future is as certain  
As life will come to an end  
When time feels like a burden  
We struggle with a certain death

The future is as certain  
As life will come to an end  
When time feels like a burden  
We struggle with a certain death

Wisdom, knowledge, science  
You know that's always better, faster  
Defeat the science, knowledge, wisdom  
These words have always ever lasted  
This is the final end
