

# Betrayed By Life

## Hatebreed

In a cold unforgiving world  
Alone with fear and weakness  
Oppressed and dying slowly  
Countless people have been, betrayed by life  
No one is exempt  
No one is safe  
So many lives will be taken  
So many lives will be ruined  
So many lives, hang in balance  
So many lives will be lost  
Betrayed by life  
Betrayed by life  
As survivors we are left to mend their wounds  
We are left to cry their tears  
We are left to pick up the pieces  
Of those who have been betrayed by life
