

# Tonight

## Y'akoto

Stay with me tonight  
Please don't go tonight  
Please don't leave me hanging tonight  
I need you tonight

I am here and you're here too  
Let's spend the night just me and you  
Are you cool (... )see the moon  
Shining through the (...)  
You that I trust baby  
I feel you and I know you feel me too

Stay with me tonight  
Please don't go tonight  
Please don't leave me hanging tonight  
I need you tonight  
I need you tonight

I know it's late and you've got stuff to do  
But they are already broken and daily light it's crawling you  
My body longs for you 'cause you make it glow  
Well make it burn boy let it go  
Make me breathe make me leave

Stay with me tonight  
Please don't go tonight  
Please don't leave me hanging tonight  
I need you tonight  
I need you tonight

Stay let it be 'cause  
What we have would be complete  
Don't play me for my honesty  
Cause I just need you here with me

Stay with me tonight  
Please don't go tonight  
Please don't leave me hanging tonight  
I need you tonight

Stay with me tonight  
Please don't go tonight  
Please don't leave me hanging tonight  
I need you tonight  
I need you tonight
