Do To Me

Trombone Shorty

I know you came here to move
Shown up tonight so the show improve
I know you feel so girl when you're feelin' the groove
And I can show you how it's doneHold on, not so fast
You got to feel and make the fire last
You wanna feel it from me, I wanna feel it from you
I say what you gonna do?What you gonna do to me?
What I'm gonna do to you
I bet you'll like it
What you gonna do to me?
What I'm gonna do to you
I bet you'll like itLate night with the lights down low
Safe and sound by the bedroom door
I bet you still won' t move
I bet you still want more
And then you shake it like I came here forCrazy, I'll be holding out
Waiting 'til no one's around
There's no better place than here
There's no better time than nowWhat you gonna do to me?
What I'm gonna do to you
I bet you'll like it (I bet you'll like it)
What you gonna do to me? (well)
What I'm gonna do to you
I bet you'll like it (I bet you'll like it)What you gonna do to me?
What you gonna do? Baby baby
What I'm gonna do to you
I bet you'll like it, I bet you'll like it
I'm talking to you
What you gonna do to me?
Baby
What I'm gonna do to you
I bet you'll like itWhat you gonna do?
Yaaaaaaaa!
What you gonna do to me?
