

Sunshine In The Shade

The Fixx

Sunshine warming the small of my back
Whatever virtues I lack
You can't see 'til I move
'Til I move in the shade
Sunshine in the shade
Sunshine in the shade
Sunshine in the shade
But then inside, sometimes I feel so cold
Catching these self thrown blows
But enough of the future I see
A shadow belonging to me
Sunshine in the shade
Sunshine in the shade
Sunshine in the shade

Every man climbs a mountain
With the hope to make a stand
Every man makes a mountain
Of his life, a master plan
Light in the dark
Light in the dark
Gives me hope
Sunshine in the shade
Sunshine in the shade
Sunshine in the shade
The shade of life
Gives me hope
Some time and place
