

# We Dont Care Anymore (1.FM - Channel X)

## Story of the Year

Underneath the gun  
In front of waiting eyes  
Our time has just begun  
No second chance tonight So we walk the longest days to live  
Inside the shortest nights  
We compromise our hearts  
To keep them satisfied The shadows of our past  
Hard to ignore  
But judgment means nothing  
That's not what we're fighting for We don't care anymore  
We don't care anymore  
We don't care anymore  
We don't care anymore Underneath the gun  
In front of doubting eyes  
We walk this path as one  
Take on the world tonight And we'll carve our names  
Into their bones  
We'll never sell ourselves  
That's not what we're fighting for We don't care anymore  
We don't care anymore  
We don't care anymore  
We don't care anymore I won't let this love  
I won't let this love die  
I won't let it die There is only one thing  
That matters this time  
At the hands of judgment  
I won't let it die No sacrifice  
Regrets left behind  
I won't let it die This time, yeah, this time  
I won't let it die  
That's not what we're fighting for  
We don't care anymore We don't care anymore  
We don't care anymore  
We don't care anymore  
We don't care anymore No, we don't care anymore  
We don't care anymore  
We don't care anymore I won't let this love  
I won't let this love die
