Boogie 2nite

Tweet

Are you ready? Are you ready?
I hope you're ready
Are you ready?
'Cause I am, said I'm ready to party, yes
Grab your coat, get your keys
'Cause whatever you're drinkin' it's on me, it's on me
Stay here if you want to, say what you want to
But I got to party, I need me a party
Came here to get ya, but I can't wait
To grab me a partner and cut a rug up tonight
I found a place
Where we could boogie, boogie tonight
I found a place
Where we could boogie, boogie
Are you ready? Are you ready?
I know you're ready
Be ready, here we are
I said we're off in the party, yeah
Let me wet my throat, get two or three
Then it's on to the dance floor, follow me
Stand if you want to, stare if you want to
But I got to party, I'm up in the party
You're glad that I got ya, and it's alright
You got you a partner, so cut a rug up tonight
I found a place
Where we could boogie, boogie tonight
I found a place
Where we could boogie, boogie tonight
I found a place
Where we could boogie, boogie
I found a place
Where we could boogie
Move your hips side to side, dance
Move your hips side to side, dance
Move your hips side to side, dance
Move your hips side to side, dance
I told you, you feel it, you got to be feelin' it
You feel it, I know you feel it, go on and dance
Dance 'cause you want to, rock 'cause you have to

'Cause ain't it a party, sho 'nuff a party
I told you I had ya, and we just might
Find another party and cut a rug up tonight
I found a place, yeah
Where we could boogie, boogie tonight
I found a place
Where we could boogie, we can boogie
We can boogie, boogie tonight
Move your hips side to side, yeah, yeah
Move your hips side to side, yeah, yeah
Move your hips side to side, yeah
