

Looking

Dirty on Purpose

My frustration won't subside, I've been trying time after time

But it's not my style to quit there is more to life than this

In obscurity or fame we're all playing in this game

Searching for something, searching for something, yeahLooking, looking, looking, you will find, find, you will be fine

Looking, lookingSaturday in the morning and the rain keep falling

Brother didn't get no sleep, now he's really feeling beat

But there is no time to waste as the devil test his faith

He just walks away on a mission to completeLooking, looking, looking, you will find, find, you will be fine

Looking, oh, find, you will be fineShe has her hand on her jaw as she wonders away

What will tomorrow bring, will her dreams just disappear

She find words are hard to say so she prays everyday

She must find a way, may the pieces fall into place, yeah, yeahFrustration won't subside, I've been trying time after time

But it's not my style to quit there is more to life than this

In obscurity or fame, we're all playing in this game

Searching for something, searching for something, yeahLooking, looking, looking, you will find, find, you will be fine

Looking, looking, looking, you will find, find, you will be fineSearching for something, looking for something

Searching for something

Find, your will be fine, find, you will be fine

Searching for something, find, you will be fine
