

Carry My Love

[Sarah Geronimo](#)

Sarah Geronimo Carry My Love Lyrics

Songwriters: N/A

Send "Carry My Love" Ringtone to your Cell

If there is something then at least just say it

I wanna know what this could mean for us

What do you have when it happens?

I think they call it love

I'll take a breath and let my feelings show

Cause we're exploring territories never known

Like the first time you sing

And all of the happiness it bringsChorusCarry my love thru all the seasons

Carry my heart inside the reasons

You are my prayer - my every thought

That I will guard at any cost

You are my safe inside the storm

And in your arms I am at home

Every emotion that's uncharted

Gives me a joy from where we startedNo matter if we take it slow

It doesn't really change a thing, you know?

It's like you fall thru the floor

And everyday being born into our love again

We're like the seams inside the picture we have sewn

And our reflection shines on every cornerstone

Our world begins with dawn

It's guiding us thru the midnight starsChorusAnswers :

(you're all my dreams)

We keep the best things and the good we have

(you're everything)

We count our blessings everyday we can

(safe in my heart)

I wanna say the words and know they're truthful

(I love who you are)

With all the love around you know I need you

(without you I'm lost)

You are a dream I hope will never end

For all the beauty of you making love to me again

Tell me I won't be alone

That we'll be together for all timeChorus
