

Prayer (Beyond Belief Version)

Petra

First I want to thank You Lord for being who You are
For coming to the rescue of a man who's drifted far
For calling me to be Your son and calling me to serve
Lord the way You've blessed my life is more than I deserve
Keep the ones I love so dearly
Fill their emptiness while I am gone
And fill the loneliness in me, in me
This is my prayer lifted to You
Knowing You care even more than I do
This is my prayer lifted in Your name
Your will be done I humbly pray
Let me be the evidence of what Your grace can do
To a generation struggling to find themselves in You
May they come to know the love of God
May their eyes be made to see
Give me the opportunity to share the truth that sets them free
And may unity in all things
Be the banner of Your church
And let revival's fire begin to burn, begin to burn
This is my prayer lifted to You
Knowing You care even more than I do
This is my prayer lifted in Your name
Your will be done I humbly pray
As we face the last and final hours, turn a wayward country back to You
And keep us from the evil that devours
Keep us on the path and lead us through
Keep us in Your light until Your kingdom comes and our work is done
This is my prayer lifted to You
Knowing You care so much more than I do
This is my prayer in Jesus' name
Your will be done I humbly pray
This is my prayer, this is my prayer
